Joris NAVARRO
Digital Ninja

Executive summary

I am a 40 years old proud dad of a princess and beloved husband. I am passionate about innovation and entrepreneurship. I am a hacker, a maker, a coder, a designer with a business mindset. My experiences and a large range of technical skills give me an high level point of view when designing new solutions focused on user experiences. My way of doing things is based on agile frameworks, promoting adaptation and continuous improvement. I am leading teams by sharing enthusiasm when tackling new challenges. Always learning is my reciepe to sucess, and I am curious to know more about yours.

Languages

French - English - Spanish - Catalan
